

MANUAL WRAP REEL 08

OVERVIEW

WRAP REEL 08 allows the operator to prepare yarn skeins of desired length for successive yarn count research with precision scale.

With handle to make the reel turn, **revolution counter with index** to read the number of turns and **acoustic bell** when the test is over.

A **reel retractable arm** allows easy removal of the wrapped yarn skeins.

Ring thread locks to adjust pretension during the wrapping operations.

WRAP REEL models **A, B, C** or **D** are useful to calibrate manually the pretensions during the wrapping operations.

Yarn spools holder of various types and electronic tension meter at request.
